Queries & answer regarding Water ATM pre-bid meeting raised by bidders

Queries 1 - We would like to know that whether the exemptions provided to the MSME, SSI and NSIC units for EMD and experience criteria.

Answer - No such exemption is given by RMC.

Queries 2 - In our knowledge there are more than five hundred operators working in the Ranchi City who are filling and selling 20 litre jar and providing home delivery also. Our apprehension is that by their presence in the same market our viability is highly questionable as we have to pay license fee to you and our plants shall be up to the mark and we have to provide quality certificates, quality water and most importantly we have to pay for ground water also to RMC for the ground water used by us.

Queries 3 - In context to matters discussed in point 2 we need to know about your view point.

Answer - RMC has already passed byelaws regarding the regulation and licensing of Jar water plant. Every private operator has to take license from RMC as well as the NOC for commercial sell of water.

Soon the existing or proposed such plants to be brought under this byelaws which will establish a complete check and control mechanism.

Queries 4 - Whether the BG is acceptable as EMD of this tender.

Answer - No

Queries 5 - Whether you will help us to provide peaceful possession on the sites allotted to us in-case. So far in our knowledge the company allotted 10 no's of sites earlier is not able to complete the job because of local problems even after paying the license fee through DD four months earlier. We need to know about the steps taken by your office to avoid such kind of situation and to recover the losses faced by agency for such reason.

Answer - As per RFP the site selection is the option of the bidder. Peaceful possession of site selected by the bidder shall be completed with the help of RMC in the light of clause 9 C (ii).
